hc1 Launches hc1 IQ™, a Groundbreaking AI-Powered Intelligence Platform to Revolutionize Healthcare, at HLTH 2025

Transforming Healthcare Data into Actionable Intelligence with AI-Powered Insights

Las Vegas, NV, October 20, 2025 — hc1, the leader in precision health insights, today announced the launch of [hc1 IQ™](#), a new AI-powered intelligence platform that transforms fragmented health data into a source of actionable intelligence. Unveiled at HLTH 2025, hc1 IQ serves as the unified backbone for all hc1 solutions, delivering predictive insights and advanced workflow automation. This next-generation technology is engineered to drive significant value, improve clinical outcomes, and optimize operational performance across the healthcare ecosystem.

Building on over a decade of success in organizing the world's healthcare data, hc1 has empowered industry-leading health systems and laboratories to improve care for nearly 100 million patients. The introduction of hc1 IQ™ marks a significant evolution, creating a single source of truth that connects disparate clinical, operational, and financial data. This unified view empowers health systems, providers, labs, and life science companies to move from reactive decision-making to proactive, data-driven strategies that close care gaps and enhance efficiency.

"The future of healthcare depends on our ability to translate data into decisive action, and hc1 IQ™ is the engine that makes this possible," said Bradley Bostic, Chairman and CEO of hc1. "We are committed to delivering innovations that not only solve today's challenges but also anticipate the needs of tomorrow. This platform represents the next step in our mission to organize healthcare data, making it more accessible and actionable to improve patient care, reduce costs, and drive sustainable growth for our partners."

"hc1 IQ™ leverages advanced AI and seamless data integration to empower organizations with real-time, predictive insights," said Jason Wenell, Chief Product Officer of hc1. "By transforming how healthcare leaders access, interpret, and act on their data, we're enabling faster, more informed decisions that directly impact operational efficiency and patient outcomes."

The platform's advanced analytical capabilities provide unprecedented visibility into performance, enabling organizations to optimize everything from laboratory operations and supply chain management to test utilization and patient outreach. By leveraging AI-powered insights, hc1 IQ™ equips healthcare leaders with the strategic intelligence required to thrive in a complex and evolving landscape.

hc1 IQ™ will be showcased at the [HLTH Conference at Booth #1445 in the Diagnostics Zone](#).

###

About hc1

hc1 unlocks the vast potential of actionable lab data to improve patient care and boost the financial performance of the healthcare system. Our solutions use advanced data management, analytics, and workflow automation powered by AI to uncover actionable insights and hidden risk signals, delivering innovation, operational and clinical excellence, and revenue growth across the entire care continuum. With over a decade of experience, we provide the expertise needed to unlock the strategic value of your lab data, improving patient outcomes and boosting financial performance. Learn more about our proven approach at www.hc1.com.
